

Amendments to the Specification:

Page 1, before line 3, insert the following heading as follows:

BACKGROUND OF THE INVENTION

Page 1, before line 11, insert the following heading as follows:

SUMMARY OF THE INVENTION

Page 1, amend the paragraph beginning on line 17 to read as follows:

According to the invention, this is obtained by the projectile being

mounted onto the plunger, or conversely, and by the plunger being ~~inserted~~
~~pushed~~ into the free space and wedged in the course of firing. With respect to
this insertion and wedging it may also be said that the plunger is shot firmly
into the projectile.

Page 3, before line 16, insert the following heading as follows:

BRIEF DESCRIPTION OF DRAWINGS

Page 3, amend the paragraph beginning on line 23 to read as follows:

Figure 2 shows this cartridge 20 shortly after the detonation of the
propelling charge 27 before the projectile 1 has left the cartridge 20. The
upper part of the intercalation 2, taking the form of a plunger 21, has been
~~inserted~~
~~pushed~~ into the projectile 1 and is also wedged there (see description
below).

Page 3, before line 32, insert the following heading as follows:

DETAILED DESCRIPTION OF THE INVENTION
